

POINT OF USE

Commercial Electric Water Heaters

American Standard®
WATER HEATERS

www.americanstandardwaterheaters.com

Features

- **FIELD CONVERTIBLE TO MEET DIFFERENT REQUIREMENTS** – easily convertible to meet different power inputs or voltage.
- **FULLY AUTOMATIC SURFACE MOUNTED THERMOSTAT** for controlling the temperature, combined with a manual energy cut-off to prevent overheating.
- **IMMERSED HEATING ELEMENT** – Screw in, INCOLOY, low wattage density to ensure more efficient operation and longer element life.
- **TOP & SIDE WATER CONNECTIONS** allows for installation flexibility.
- **FULL FLOW BRASS DRAIN VALVE** factory provided & installed, allows easy and quick drainage.
- **TEMPERATURE AND PRESSURE RELIEF VALVE** factory provided & can be relocated from side to optional top of the heater.

Performance

- **HFO FOAM INSULATED** – 1 inch-thick, environmentally-friendly insulation foam saves energy, reduces fuel cost by maximizing heat retention, and contributes to overall energy efficiency.
- **MEETS OR EXCEEDS SAFETY AND EFFICIENCY REQUIREMENTS** – All models are UL 1453 listed and meet or exceed ASHRAE 90.1B-1992 standards.

Quality

- **HEAVY GAUGE STEEL TANK** for extra years of trouble-free service.
- **GLASS-LINED TANK** with DuraGlas™ and fired at 1600°F for optimum protection from the effects of corrosion.
- **MAGNESIUM ANODE ROD** to prolong tank life.
- **PRESSURE TESTED AT THE FACTORY** – All tanks are hydrostatically tested and certified at 300 PSI test pressure and 150 PSI working pressure.
- **4-YEAR LIMITED WARRANTY** – 4-year limited warranty on tank and component parts.

6, 10, 15, & 20 Gallon Capacities
120, 208, 240, 277, or 480 V Single Phase
2.0kW to 6.0kW

Water heaters are manufactured to voltage and wattage specifications. When less than design voltage is supplied to the unit, the element will still heat, but at less than the design value.

SAMPLE SPECIFICATION

Water heater shall be AMERICAN STANDARD WATER HEATERS model _____ having a storage capacity of _____ gallons, a rated input of _____ KW at _____ Volts, single phase 60 Cycle AC and a recovery rate of _____ gallons per hour at 90°F temperature rise. Water heater tank interior shall be glass lined with Dura-Glas™, furnished with anode rod and insulation shall be non-CFC foam. Water heater shall be tested and listed to Underwriters Laboratories standard UL 1453.
